**CHAPDOMINICA-** A Member of The Caribbean HIV AIDS Partnership (CHAP), is made up of a number of small groups of MSM (Men who have sex with Men)/LGBTI (Lesbian Gays Bi-sexual Transgender Intersex) in the Eastern Caribbean. For the Past years, we have undertaken programmes in small settings where, because of homophobia, outreach to MSM is very difficult.

Our concerns are to provide HIV prevention and Human Rights information to adults and young MSM/LGBTI community in our countries, who are especially vulnerable as to social stigma & discrimination against them is very great. We have realized however that we need to come together to discuss strategies and to see how we might collaborate to strengthen programming for MSM/LGBTI grouping, including MSM youth in our countries with an emphasis on preventing the transmission on the HIV
